## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1 and 4-12 are allowed.

## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The combination of a fireproof double glazing and a transparent TiO<sub>2</sub> layer adjacent the fireproof layer of the glazing is not taught or adequately suggested in the prior art of record. The material properties found for TiO<sub>2</sub> do not suggest or teach the TiO<sub>2</sub> to be used in the same manner as used in the present application. The TiO<sub>2</sub> was found to reduce the incidence of UV radiation and also absorb certain other wavelengths but was also found to be primarily opaque and not transparent. The prior art also did not directly teach the thicknesses claimed in the present application along with the fireproof layers in a double glazing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ryan D. Kwiecinski whose telephone number is
